

## **FLOOD PSA 2**

Flooding and spring storms go hand in hand in Kansas. In fact, residents of western Kansas have been on alert for potential flooding since the massive snow drifts there began to melt.

I'm Major General Tod Bunting, Adjutant General and Director of Kansas Emergency Management, reminding you to take flooding seriously. Know and update your flood insurance policy, have an emergency kit of food, water and medicine at home and in your car; never drive into flooded areas and always have a full tank of gas in case you need to evacuate.
